First of all, before connecting your tablet to your device, make sure that:

- Your tablet and your device are connected to the same Wi-Fi network.
- 2 Your HUBER 360° APP is launched. Select "Tablet" item in the "Settings" menu of your device.

Your device automatically detects your tablet. The "**tablet**" icon at the top right corner of your device screen and that of your tablet ensures that the connection is operational.

SAVE AND PROTECT YOUR DATA

For more security, **save all your data on an external support of your choice**: micro SD card (available in supermarkets or in specialized stores), personal

computer<sup>\*</sup>, external hard drive...

At the time of saving<sup>\*\*</sup>, choose a password for security protection. **Please keep it safe because without it, it will be impossible to restore your backups**. For privacy reasons, LPG SYSTEMS does not have access to your password and cannot ask you for it. LPG SYSTEMS can not be held responsible for any loss of your data.

\*Use the USB cable provided with the tablet to connect the tablet to your personal computer. \*\*Go to the HUBER 360 APP settings menu, "Database" section.

#### NEED HELP ?

Discover our video tutorials for step-by-step guidance in the use of your device. Scan the QR Code below with your phone's or your tablet's camera. You will then be redirected to the corresponding playlist. If the QR Code reading does not work, simply download the free "Unitag" app from the Google Play Store or Apple Store.
